

Improved Public Transport 2

Description

Improves public transport simulation with features such as unbunching, line colors and more.

Notes

Configuration

The image shows a settings menu for a simulation. It has a dark background with white text. The settings are organized into sections separated by horizontal lines. The sections are: Settings, Budget control, Vehicle unbunching, Spawn time interval, and UI Settings. Each section contains various options and sliders.

Settings

Show speed in:
km/h

☒ Auto show line info

Budget control

☒ Budget control

Update

Vehicle unbunching

Unbunching aggression: 29
